-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

Applicant's arguments, see "Remarks", filed February 5, 2004, with respect to the rejection(s) of claim(s) 1-11, 28 and 39-40 under 102(e) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Claey's et al. (4,853,521) as cited in Applicant's IDS.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-11, 28, and 39-40 remain rejected under 35 U.S.C. 102(b) as being anticipated by Claey's et al. (4,853,521) as cited in Applicant's IDS. Claey's et al. discloses a method for verifying and administering drugs to a patient, using a bar code, optical reader and visually noted by the clinician on a display (col. 2, line 36- col. 3, line 15). Claey's et al. states, "To confirm syringe contents are as intended, each syringe and a bar coded container at C, such as a vial or ampule from the manufacturer, are scanned in sequence of intended use. For this purpose, tray T would also contain the manufacturer's container in alignment or otherwise paired with the appropriate syringe

Art Unit: 3738

to enable convenient scanning at the start of a medical procedure." As can be seen in the segment of Fig. 1 below, the bar coded syringes (11) are aligned with their corresponding bar-coded containers (C). Therefore, the sites are coded with the aligned containers. Please note that the first and second sites can be the same site, as recited by the Applicant in claim 39.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 3738

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
